

Terminology Database | Base de données terminologique

This terminology database was created by CaRMS using the *Grand dictionnaire terminologique* (GDT) of the *Office québécois de la langue française*, the Termium database from the Translation Bureau of Canada, various medical associations, and our own knowledge base. The terminology in this database has been reviewed and approved by the Faculties of Medicine in Québec and the *Fédération médicale étudiante du Québec* (FEMQ).

Cette base de données terminologique a été créée par CaRMS avec l'aide du Grand dictionnaire terminologique (GDT) de l'Office québécois de la langue française, la base de données Termium du Bureau de la traduction du Canada, différentes associations médicales et notre propre base de connaissances. La terminologie dans cette base de données a été révisée et approuvée par les facultés de médecine du Québec et la Fédération médicale étudiante du Québec (FEMQ).
